

Capsule

Reimagining how we store
memories—through play.

Does anyone's camera
roll look like this?

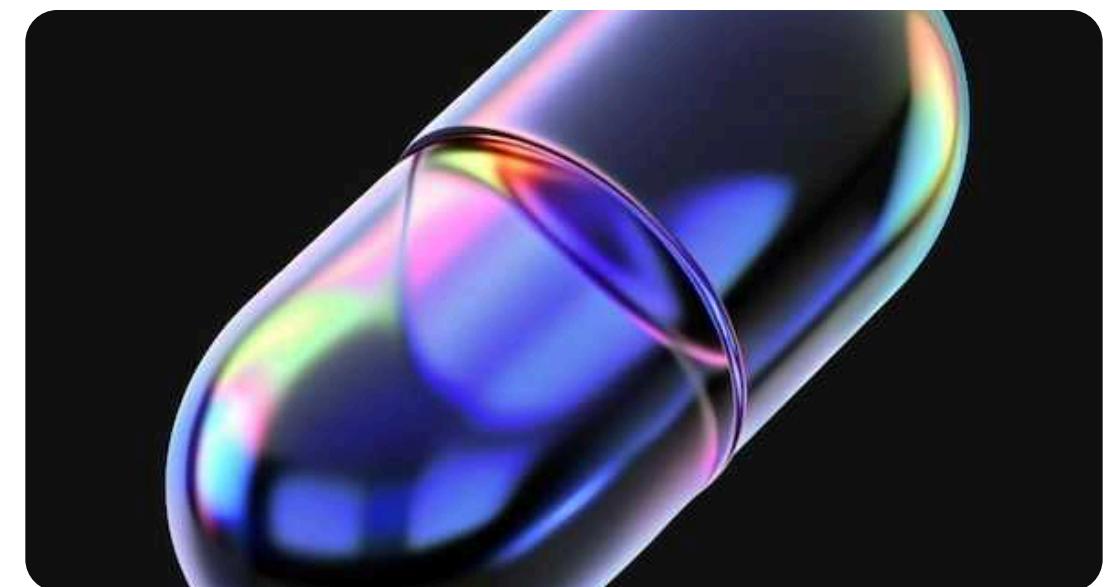

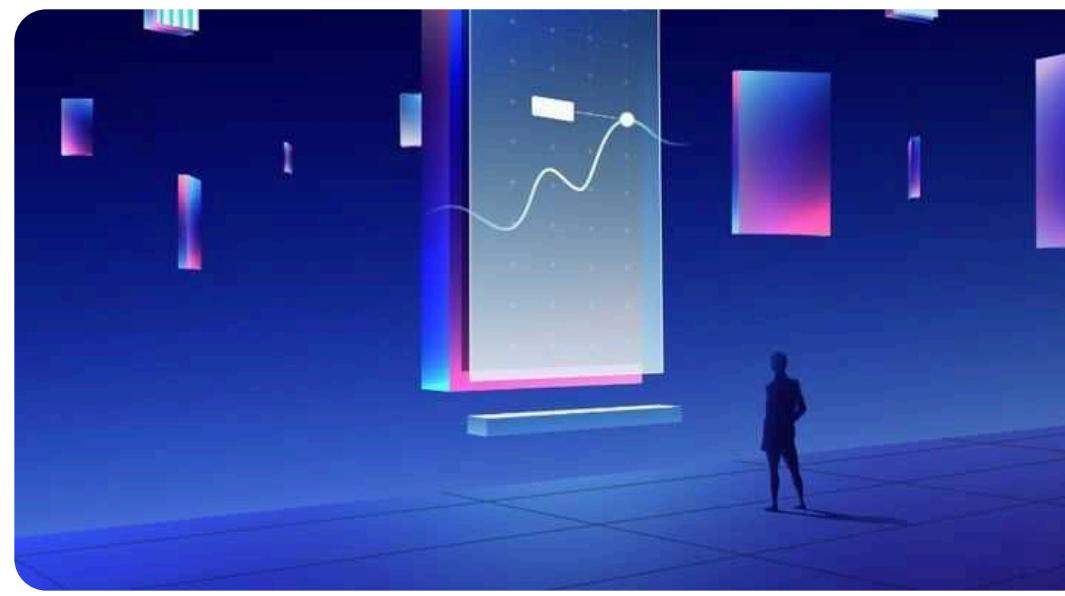

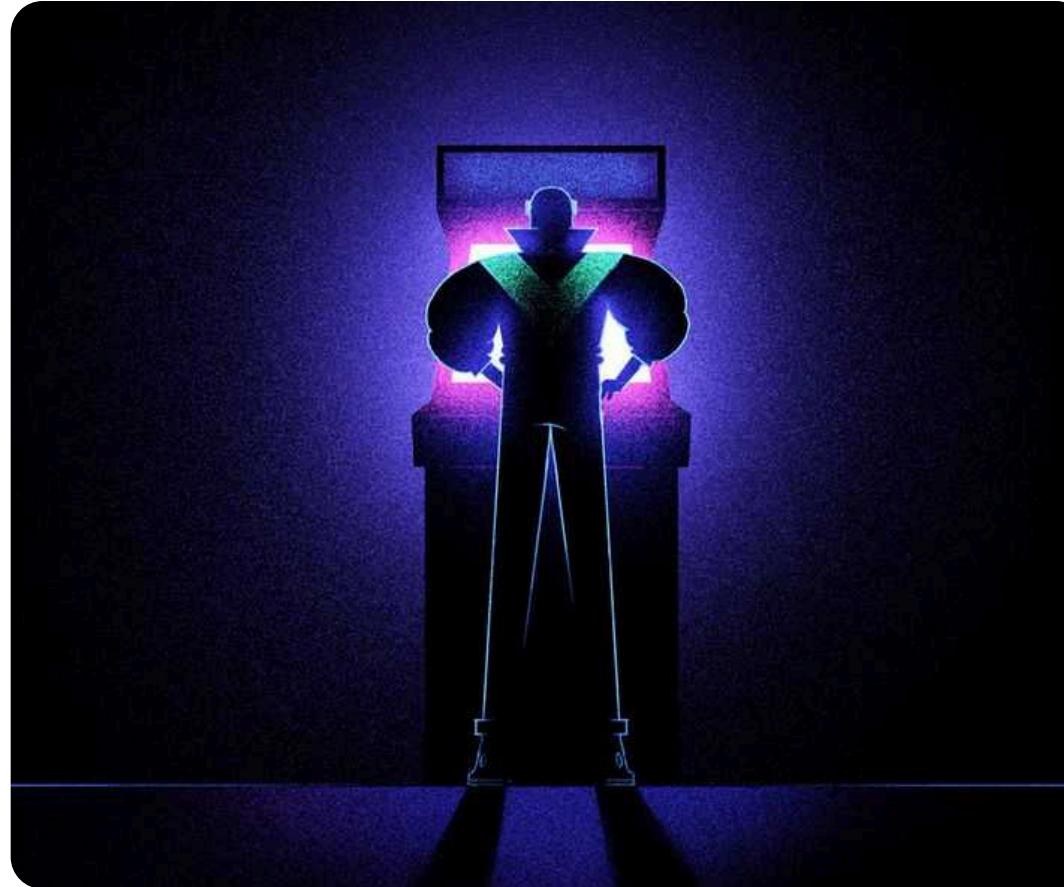

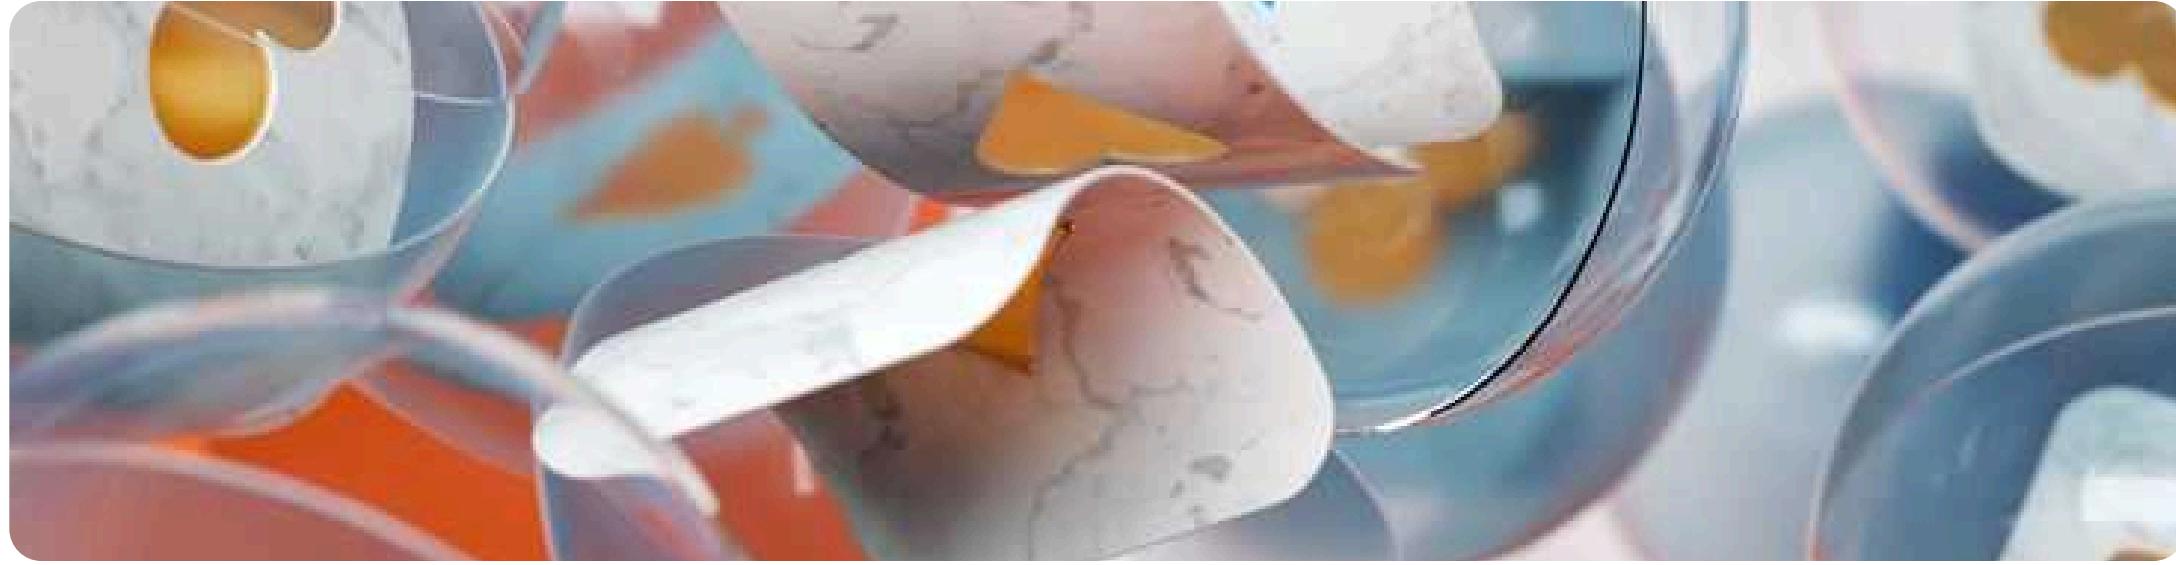

**How many memories are sitting
unseen in your camera roll?**

Today's memories are stored like files.

Today's memories *should* be stored like stories.

Inspiration

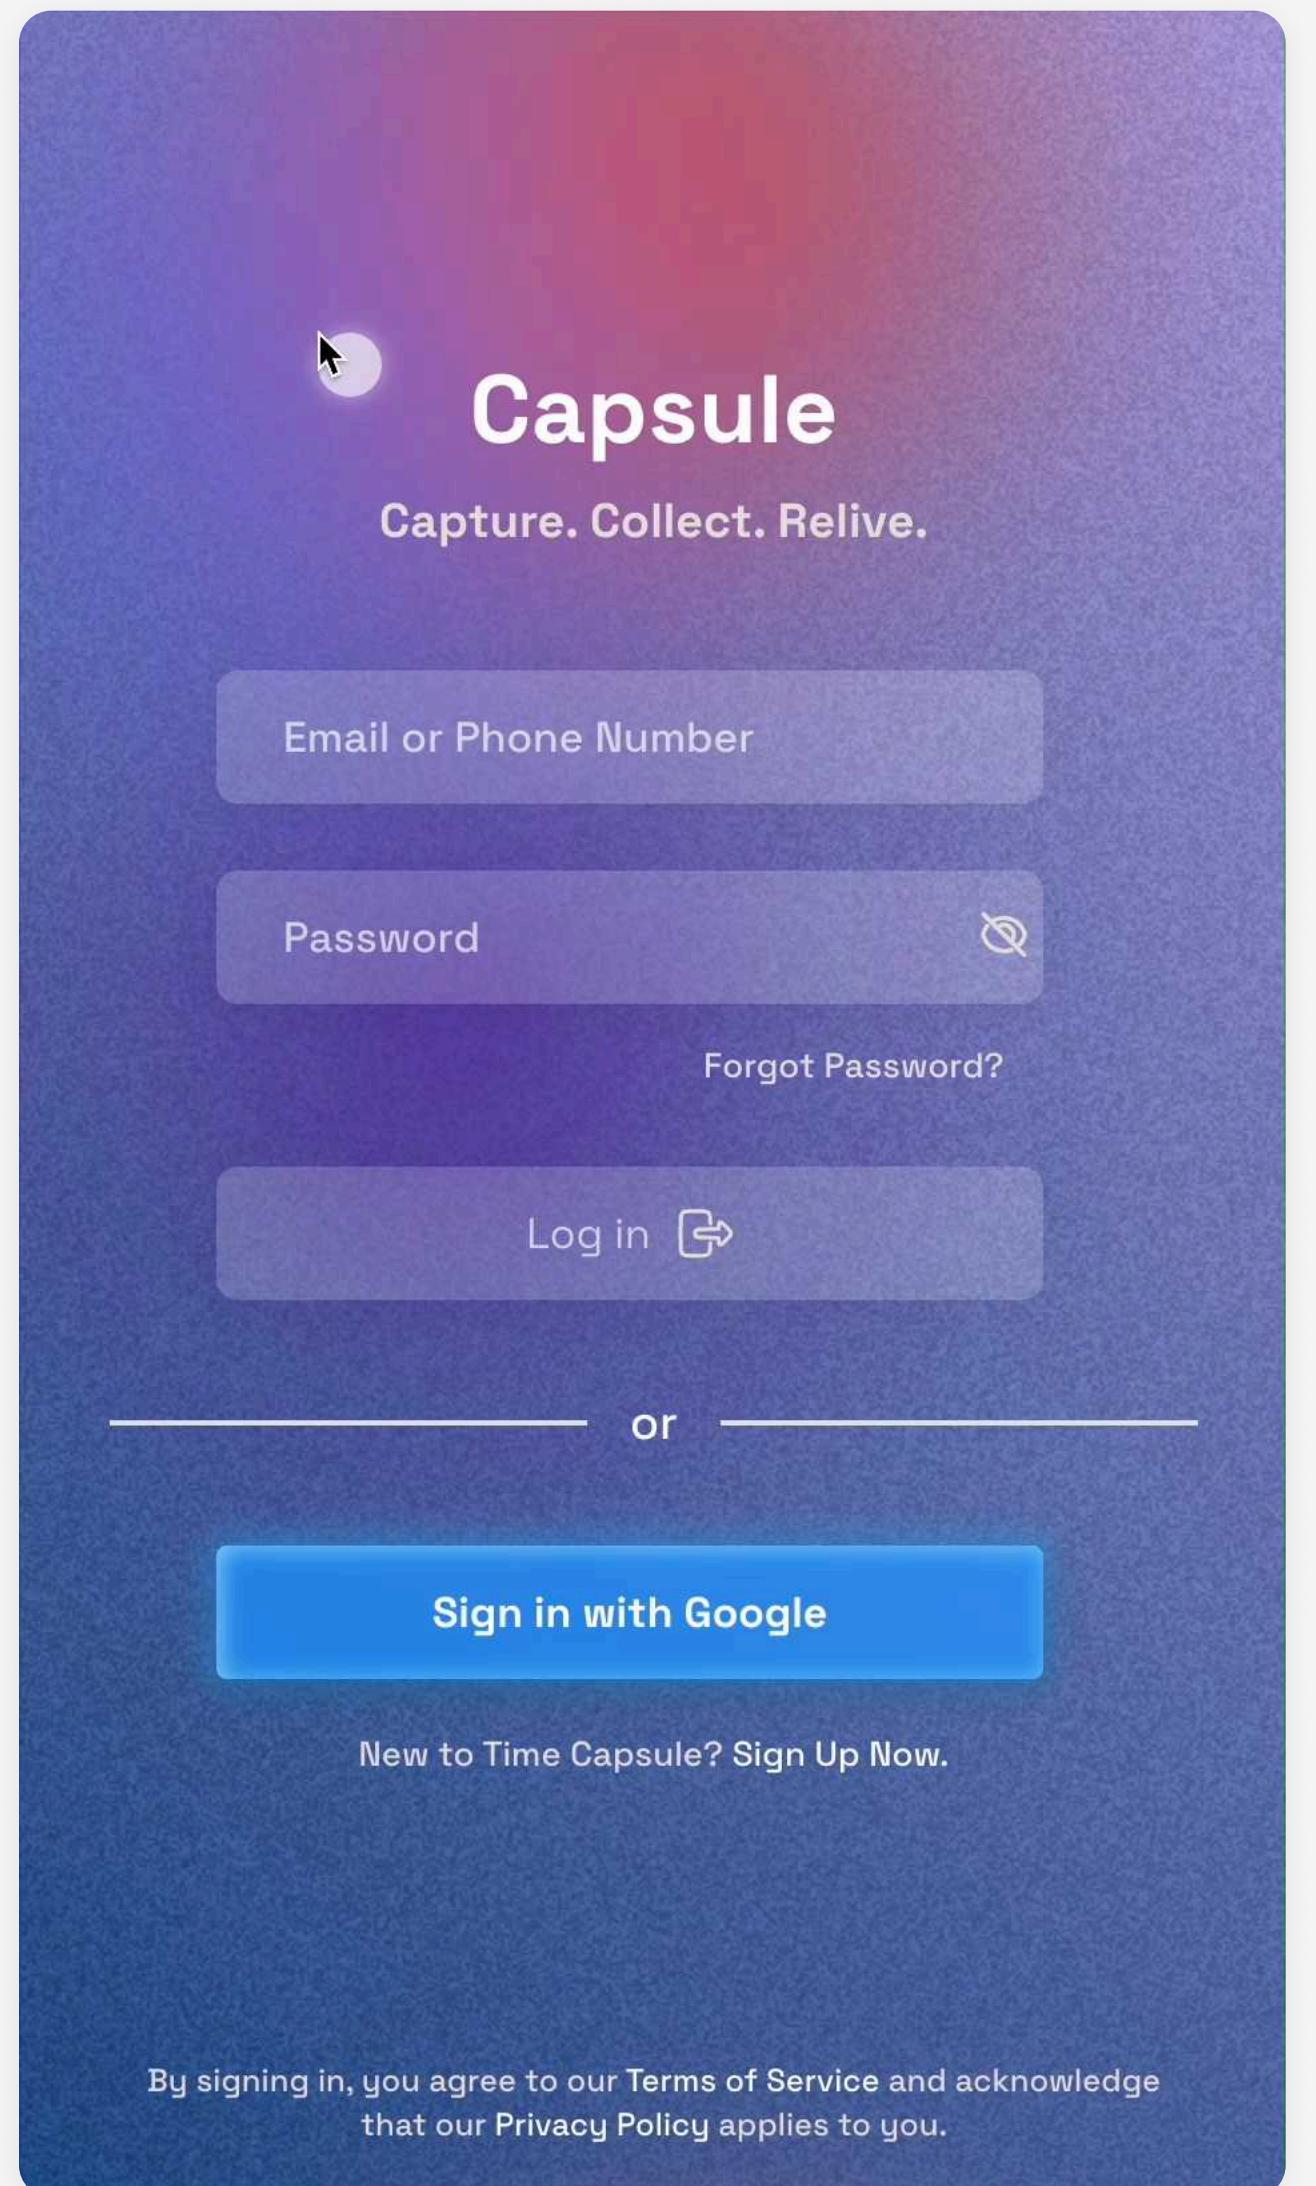

3D Design Process

3D Design Process

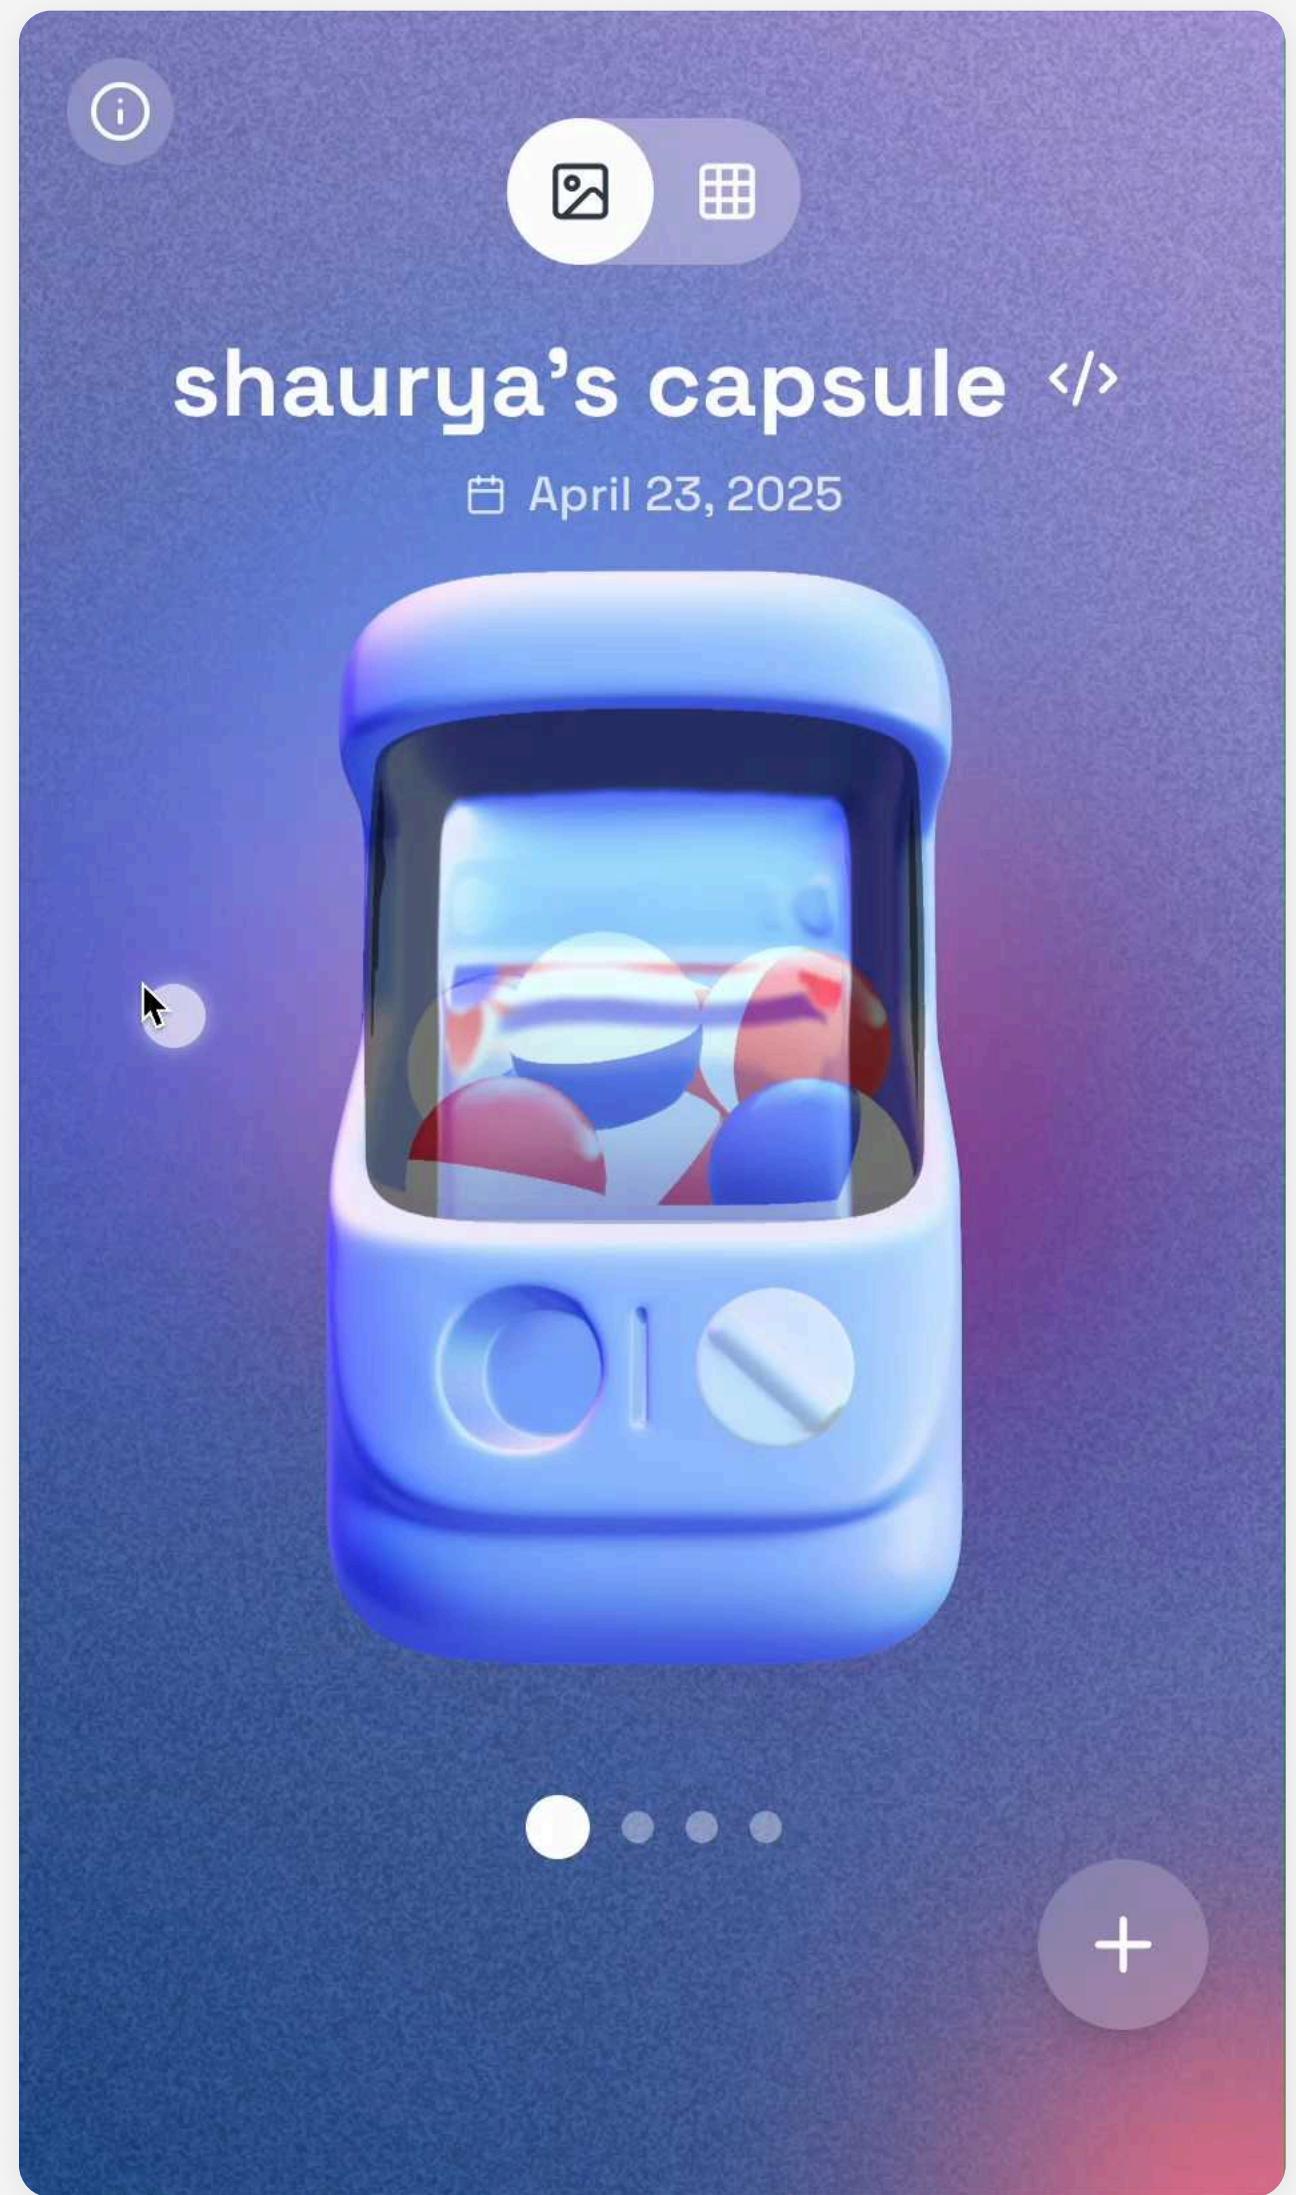

Feature

😊 Log in

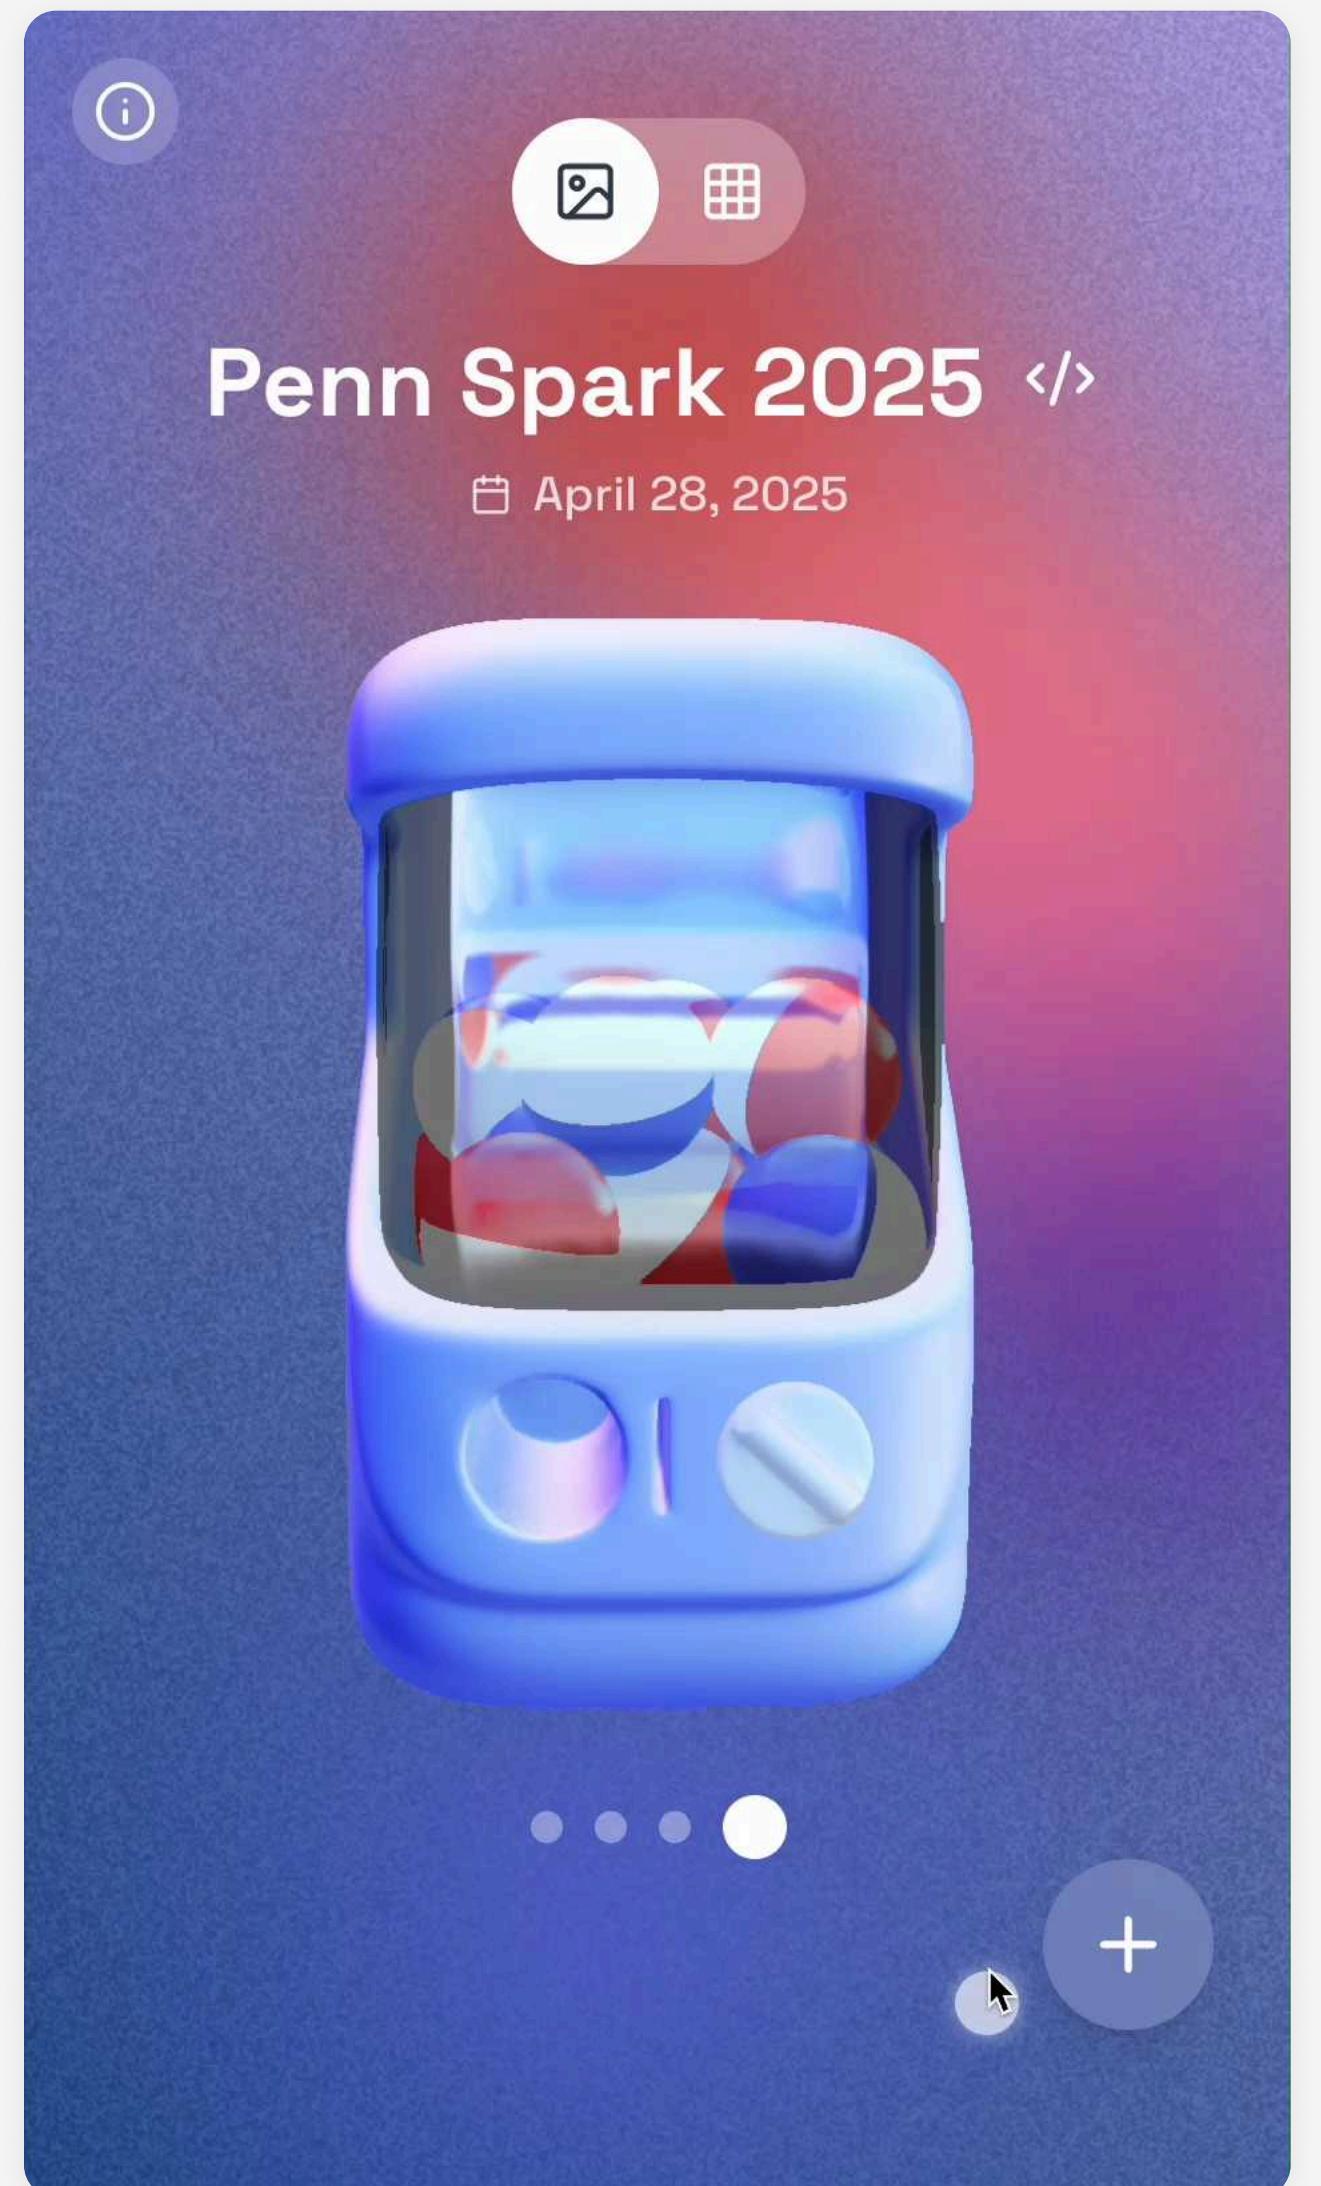

- Standard authentication login
- Google OAuth login

Feature

House icon Toggle view

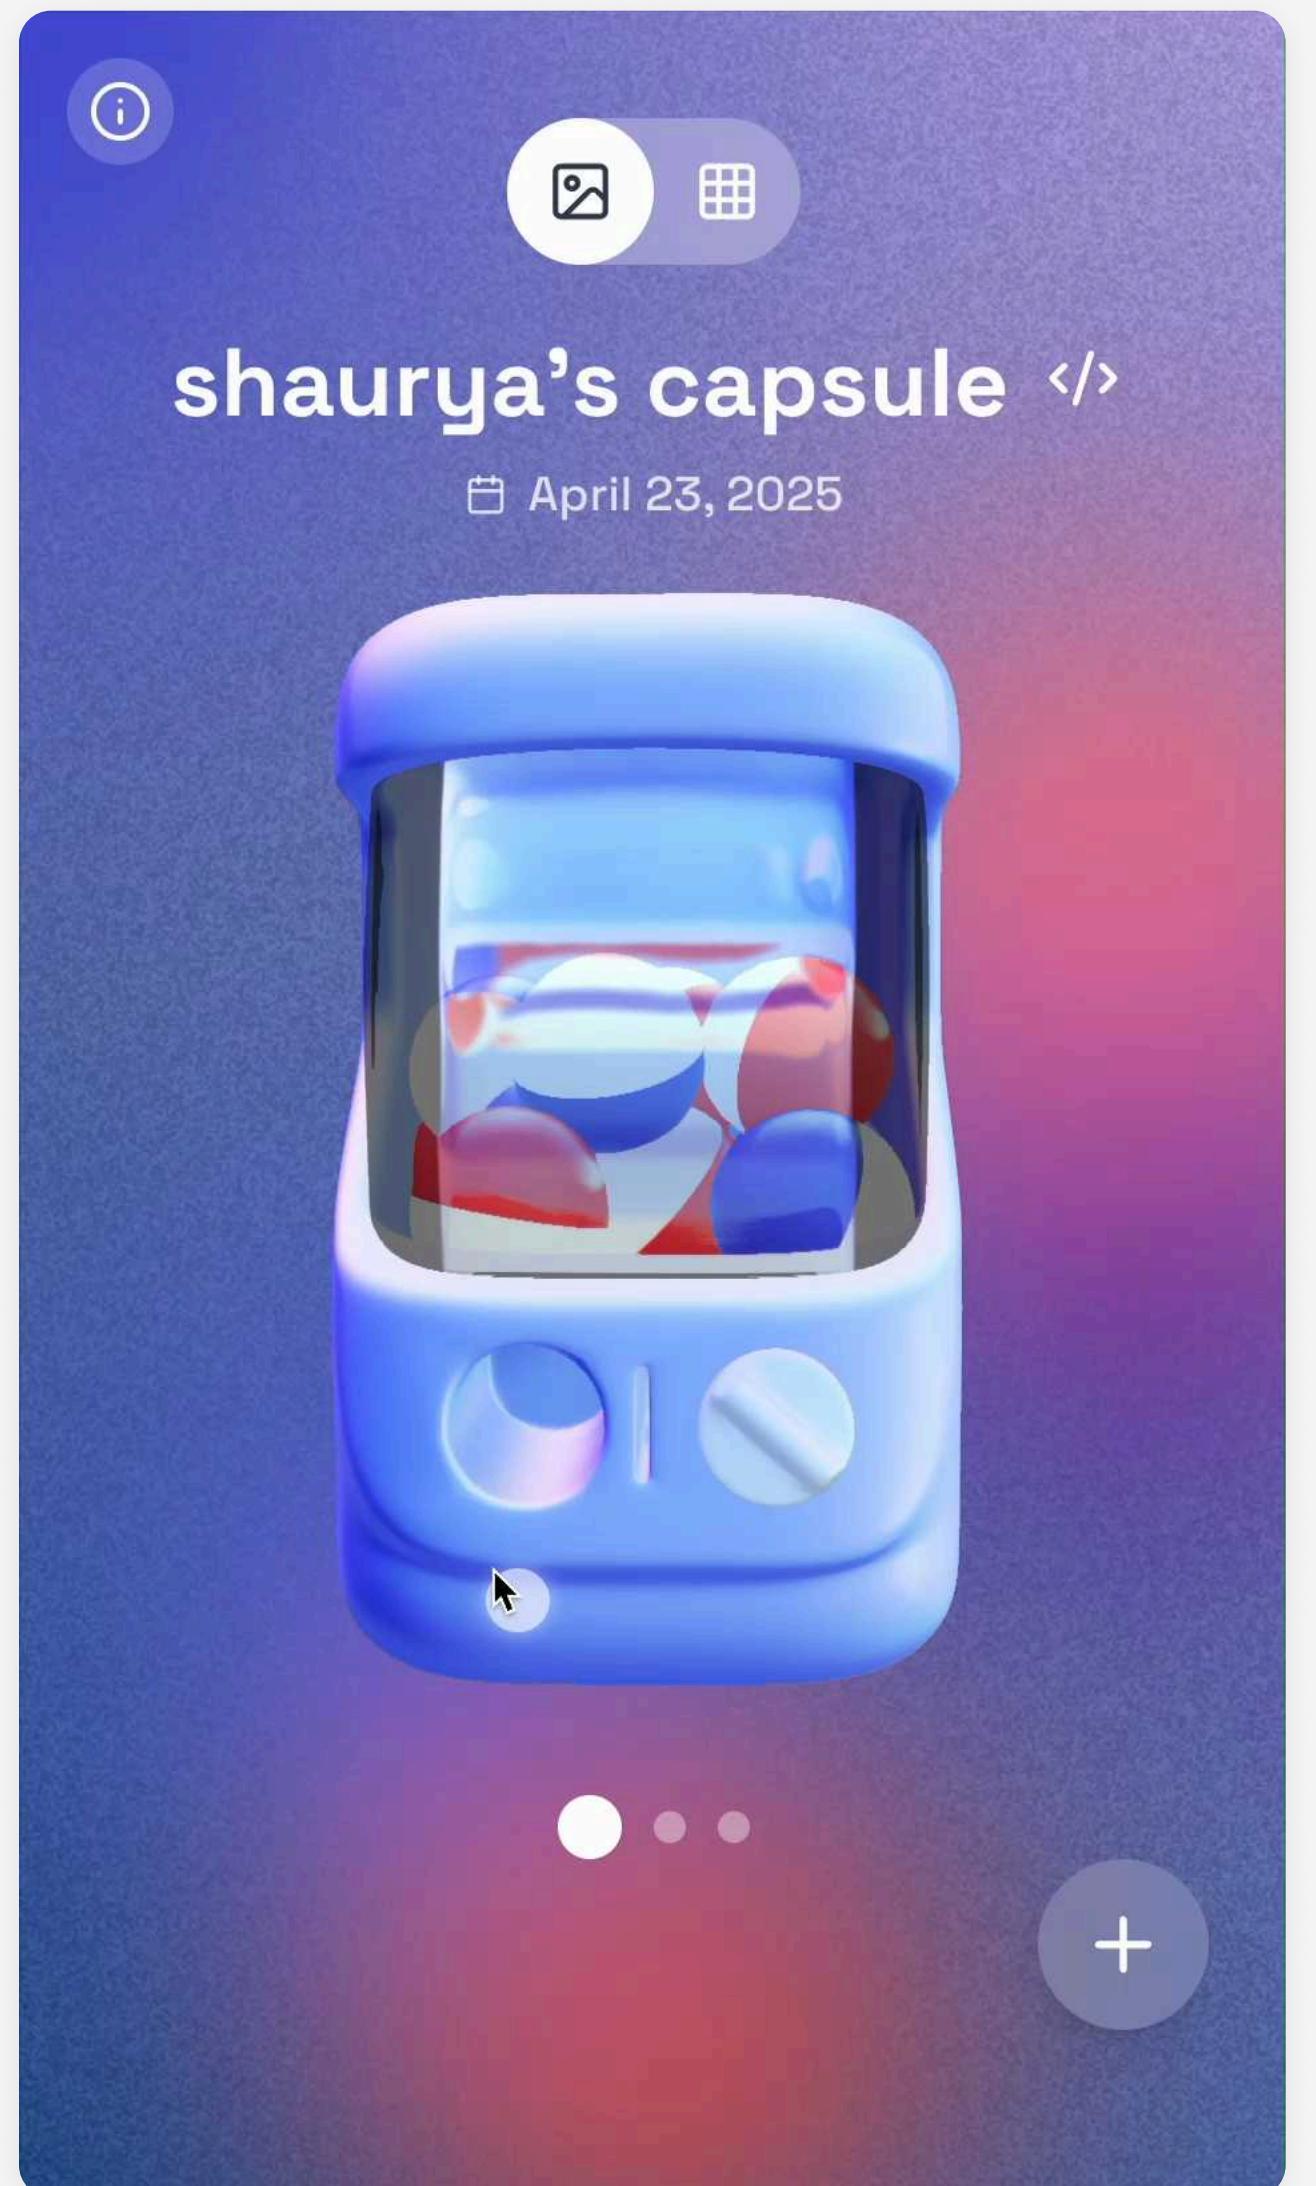

- Personal dashboard with 3D animations, powered by Spline
- Displays users' time capsules and capsule info (name, opening date)

Feature

Uploading a memory

- Once you've selected a capsule:
 - Upload memories
 - Rename/customize

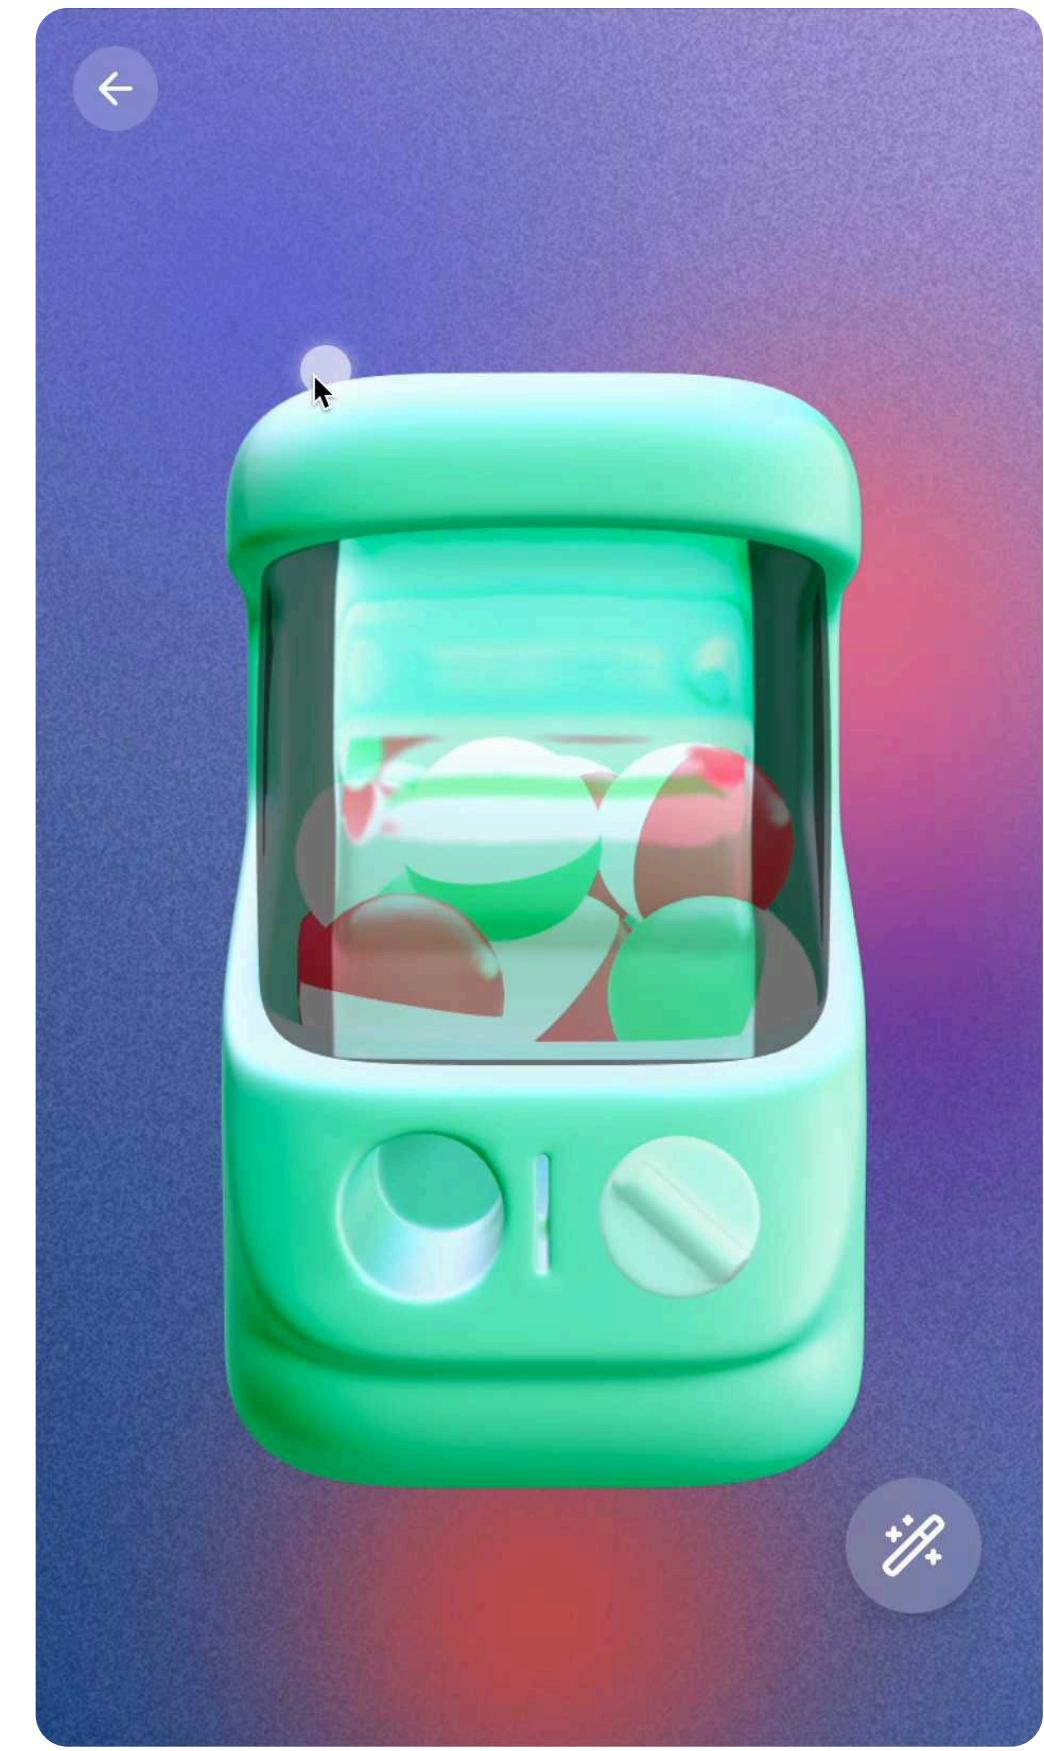

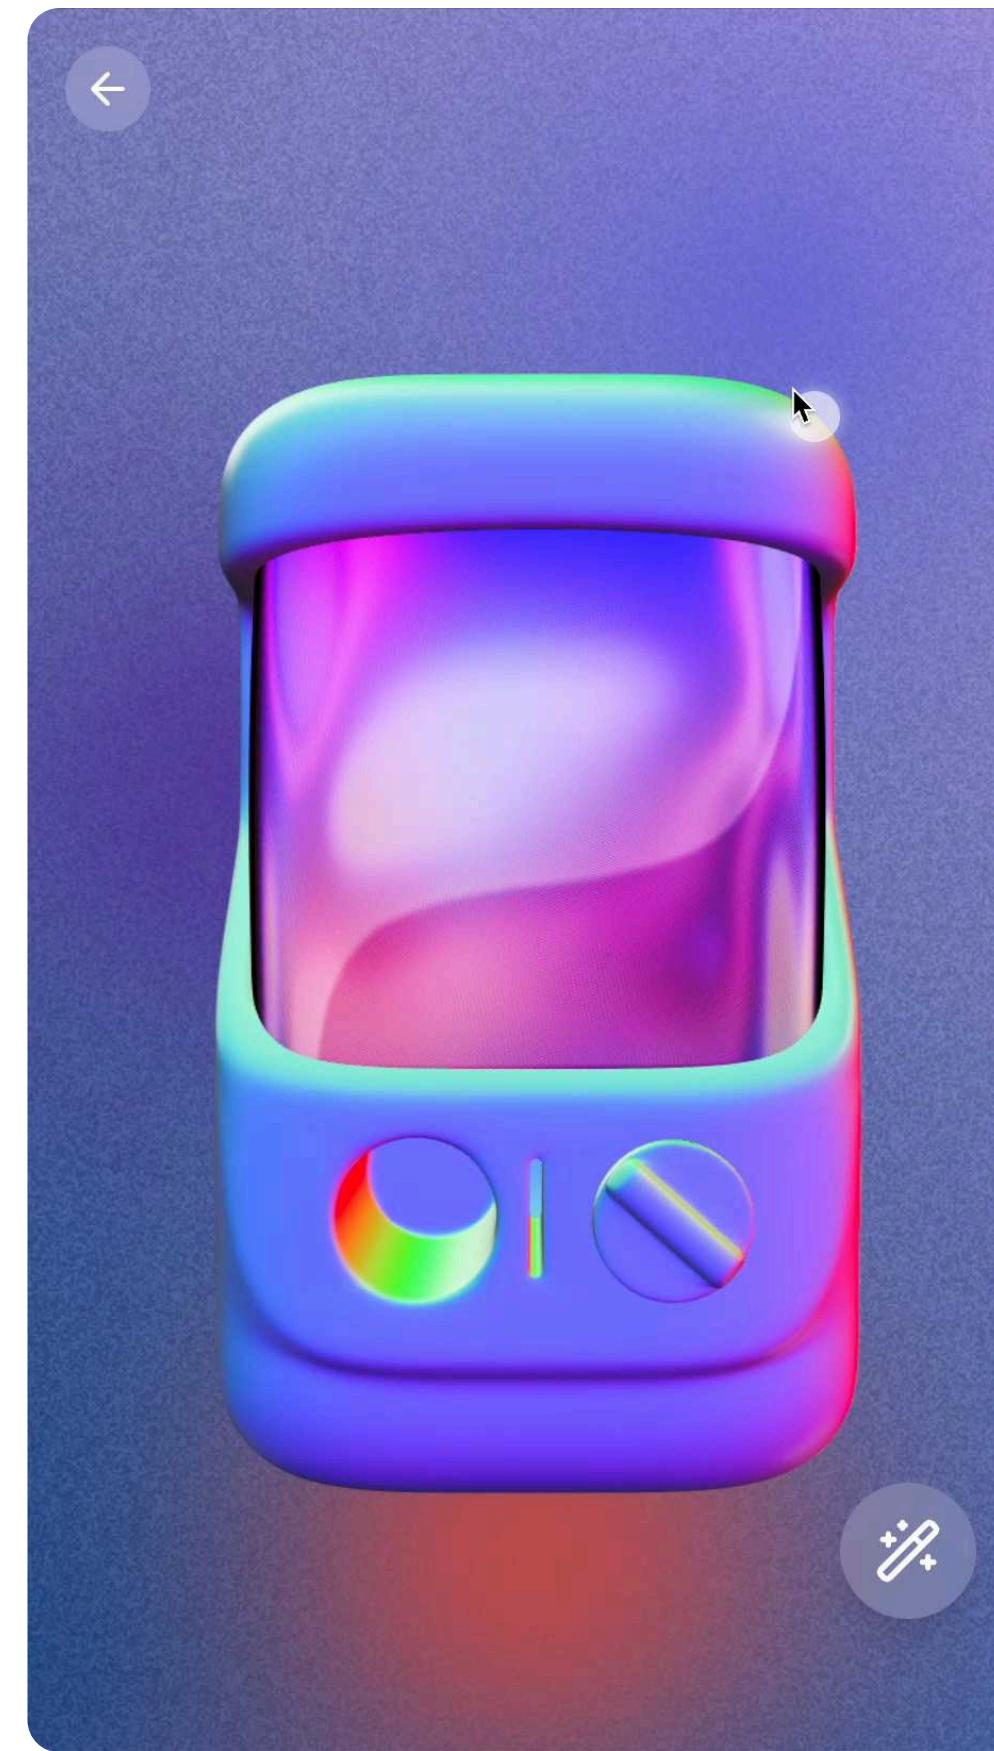

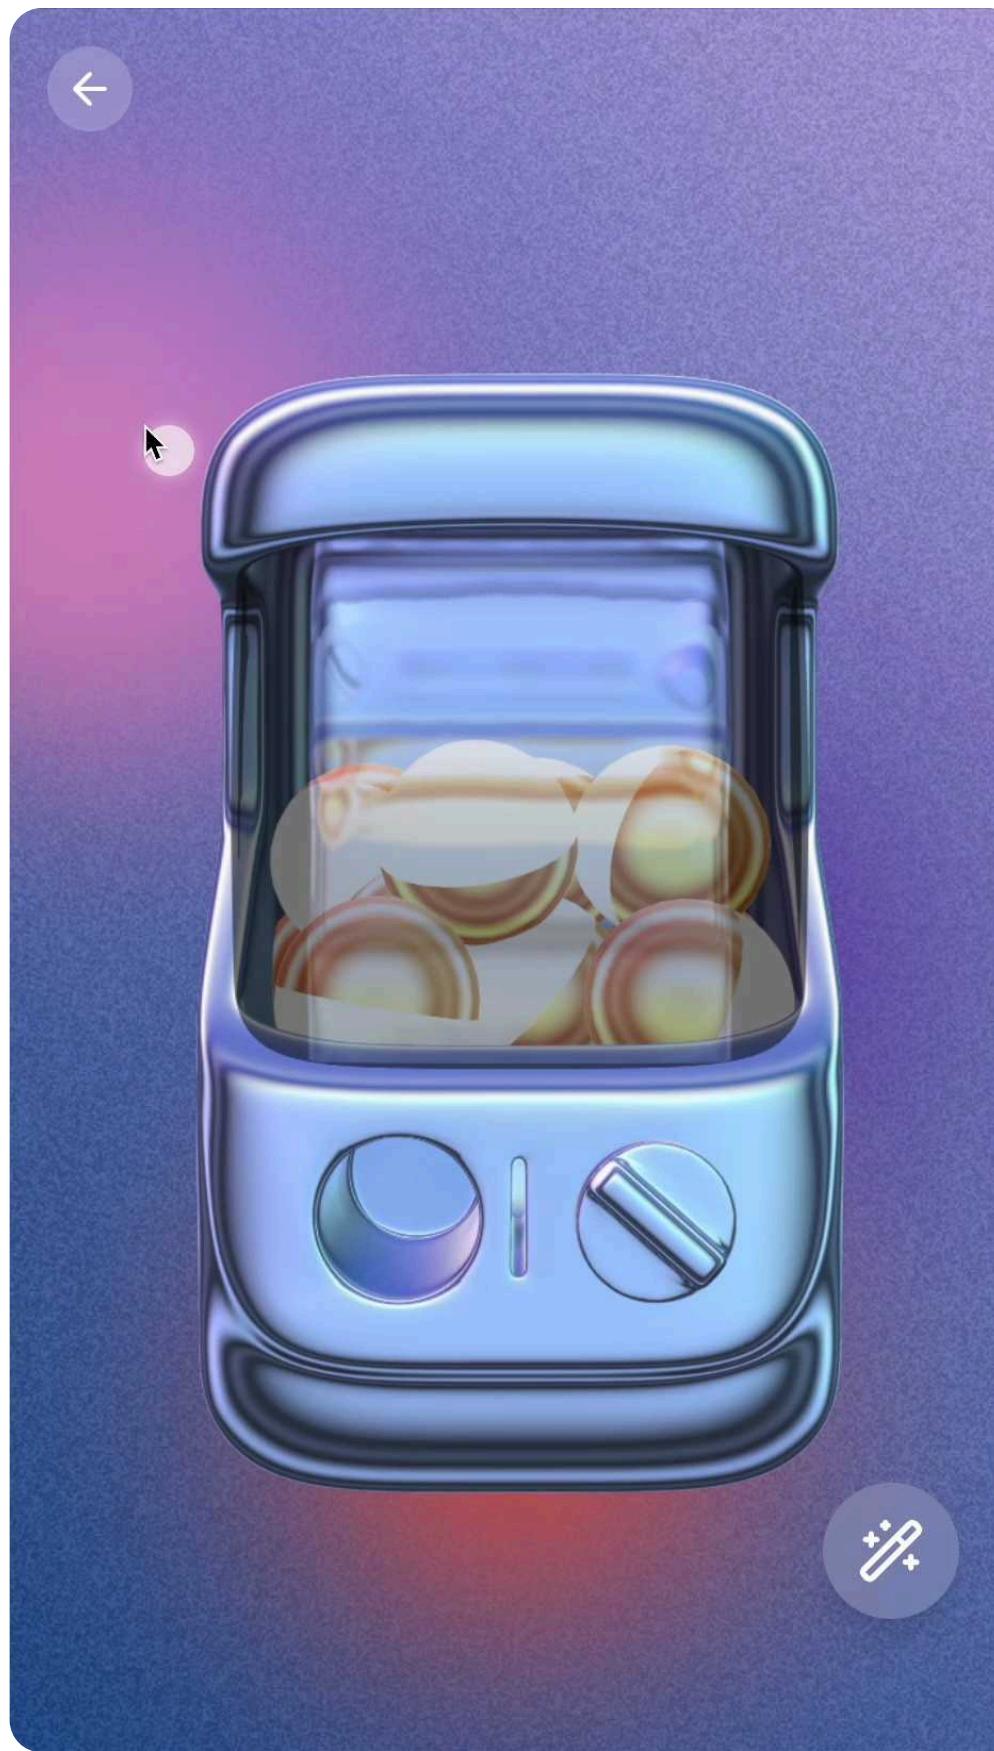

Feature

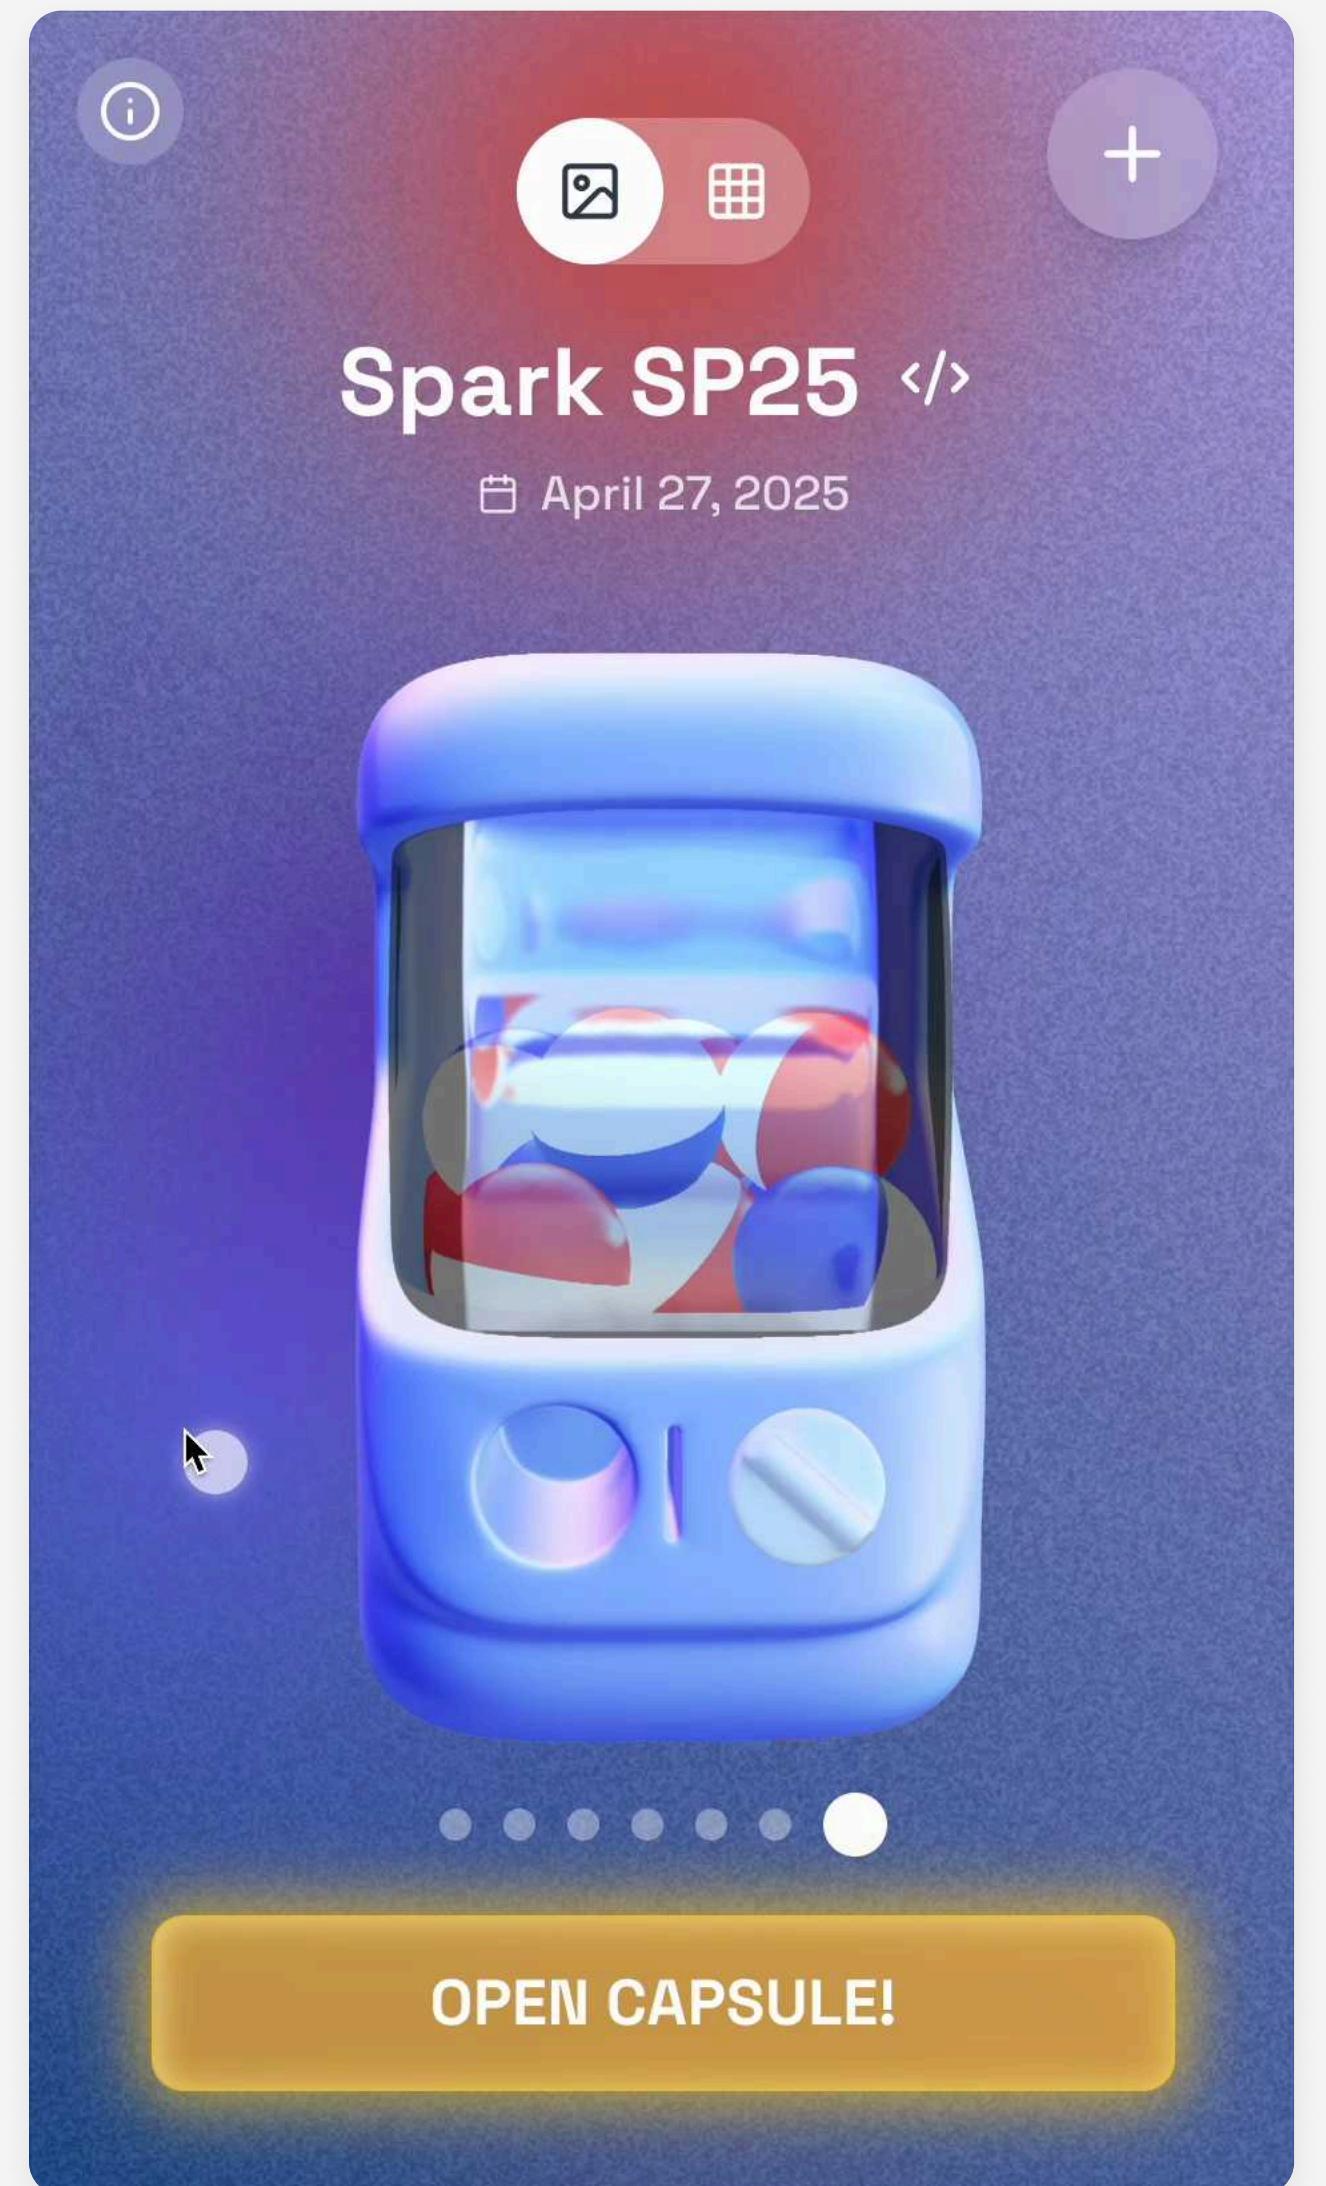

Creating a capsule

- Once you've selected a capsule:
 - Upload memories
 - Rename/customize

Feature

❖ Customizing

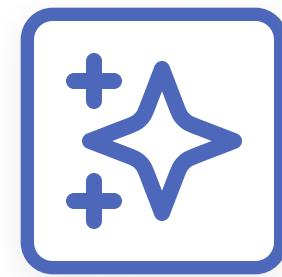

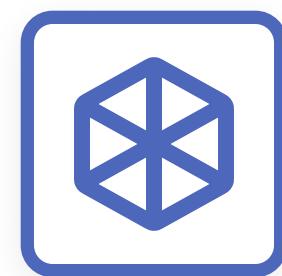

Feature

✨ Opening a capsule

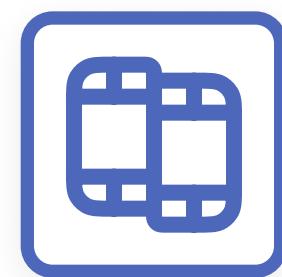

- Open your capsule to see a timelapse of memories
- Invite/join friends' capsules using invite codes

Turn uploads into interactive, gamified capsules

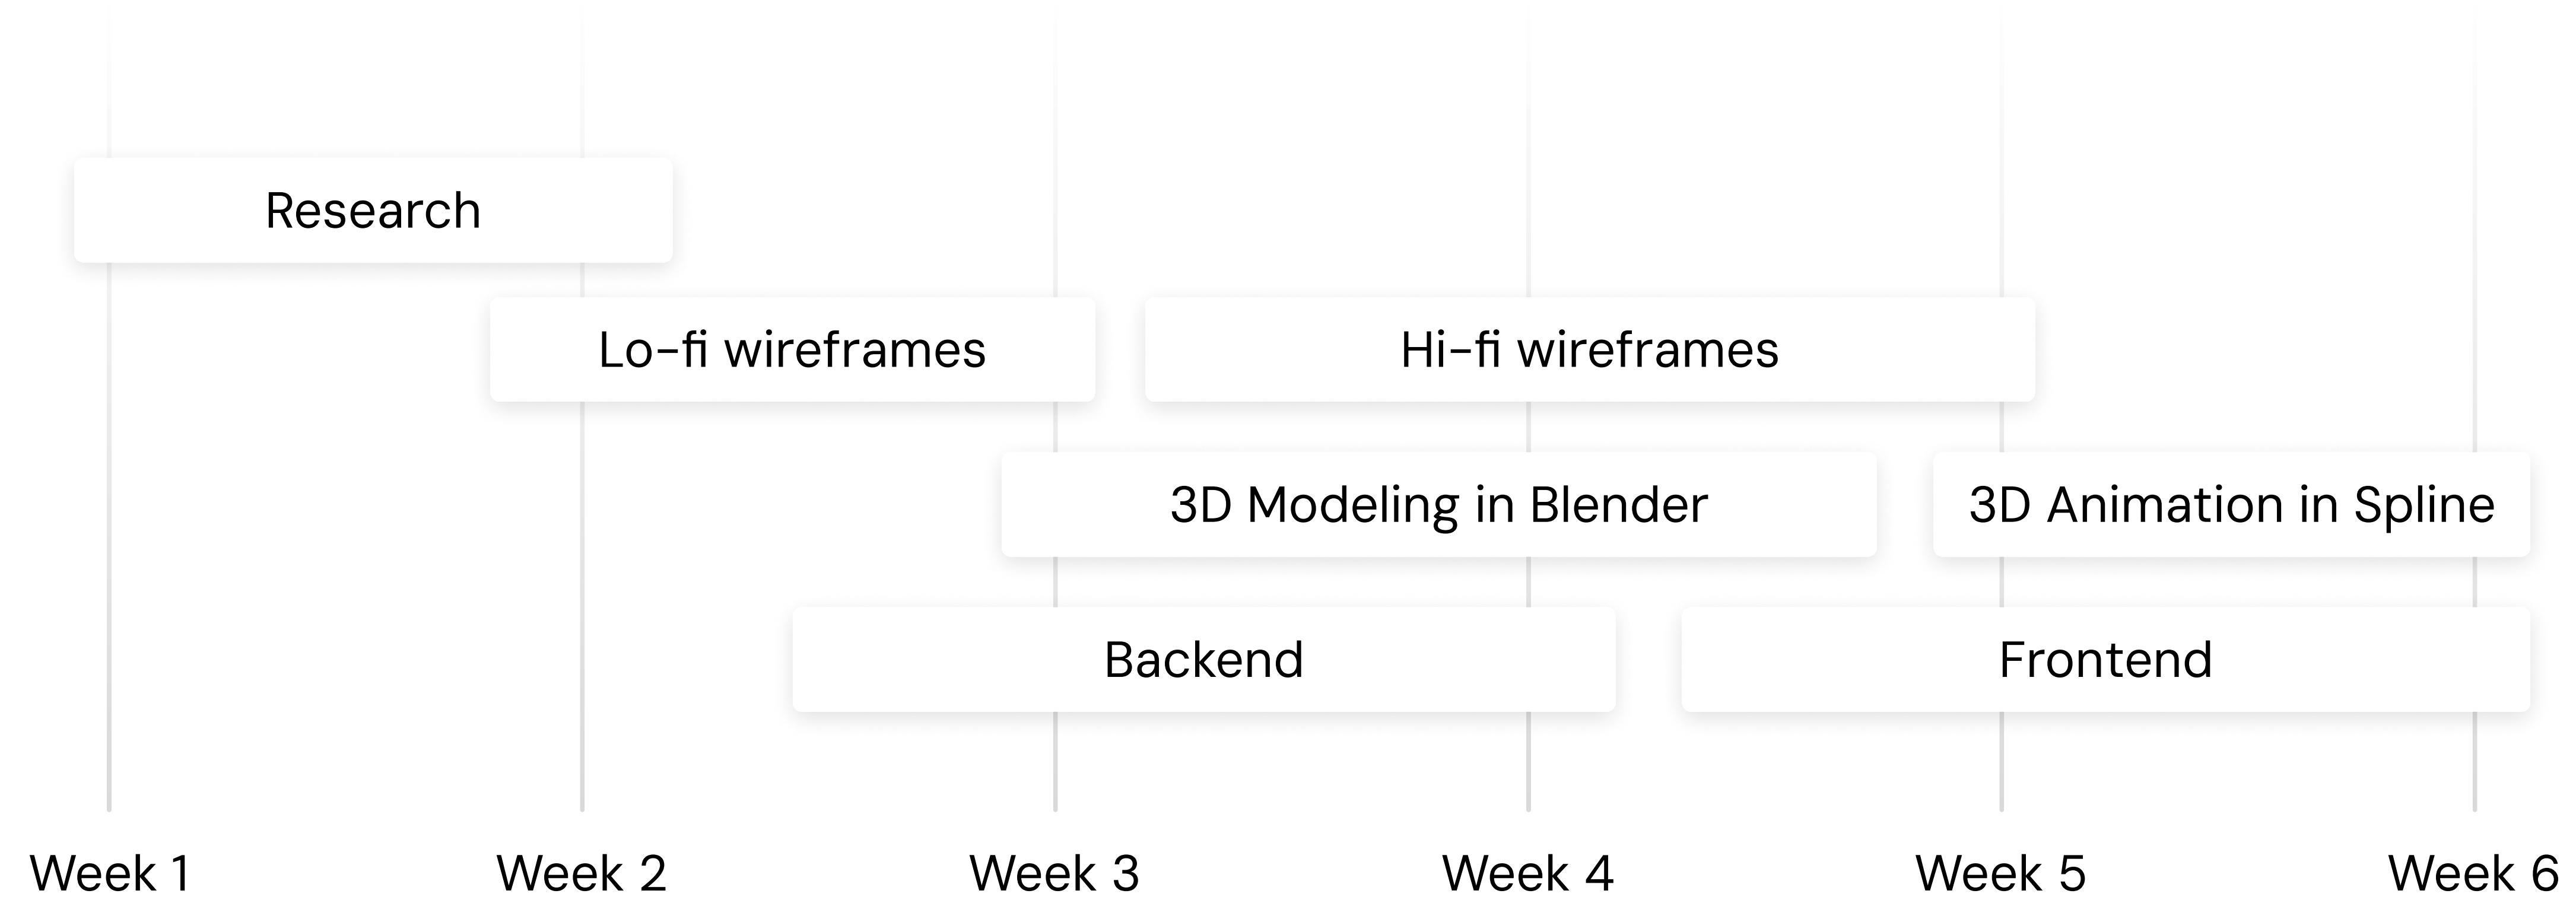

Unlock surprise and nostalgia through 3D storytelling

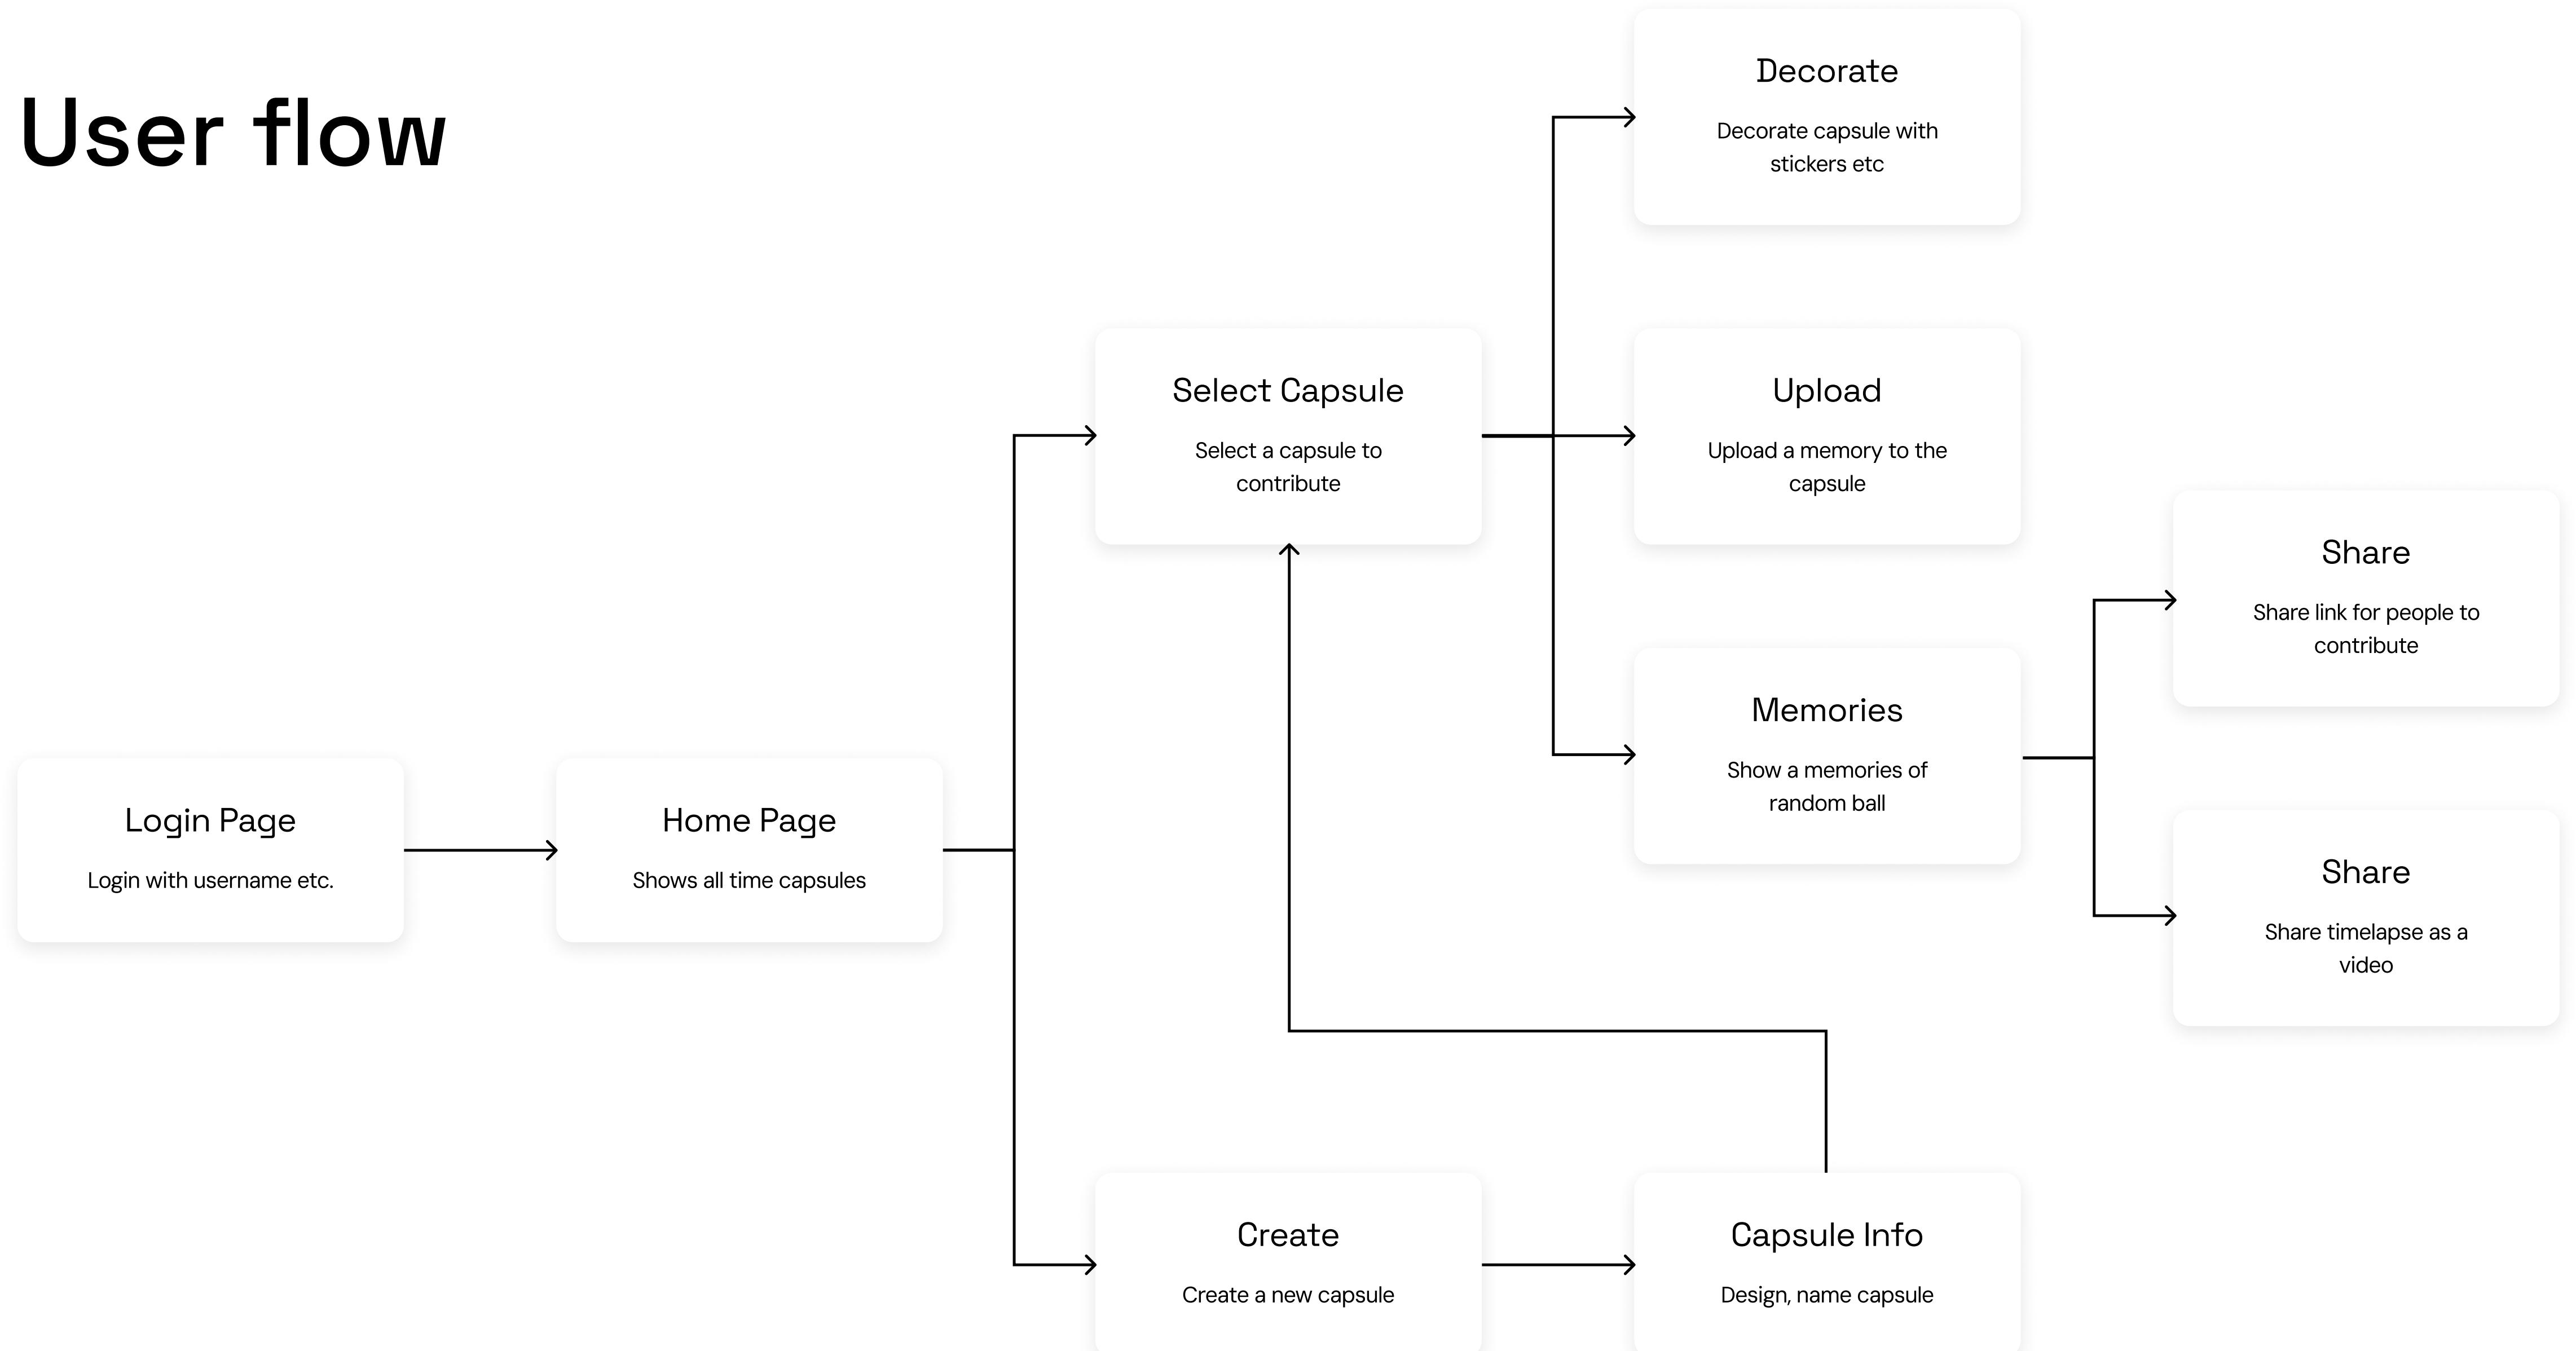

Create memories that are not just stored—but shared, felt, and celebrated

Timeline

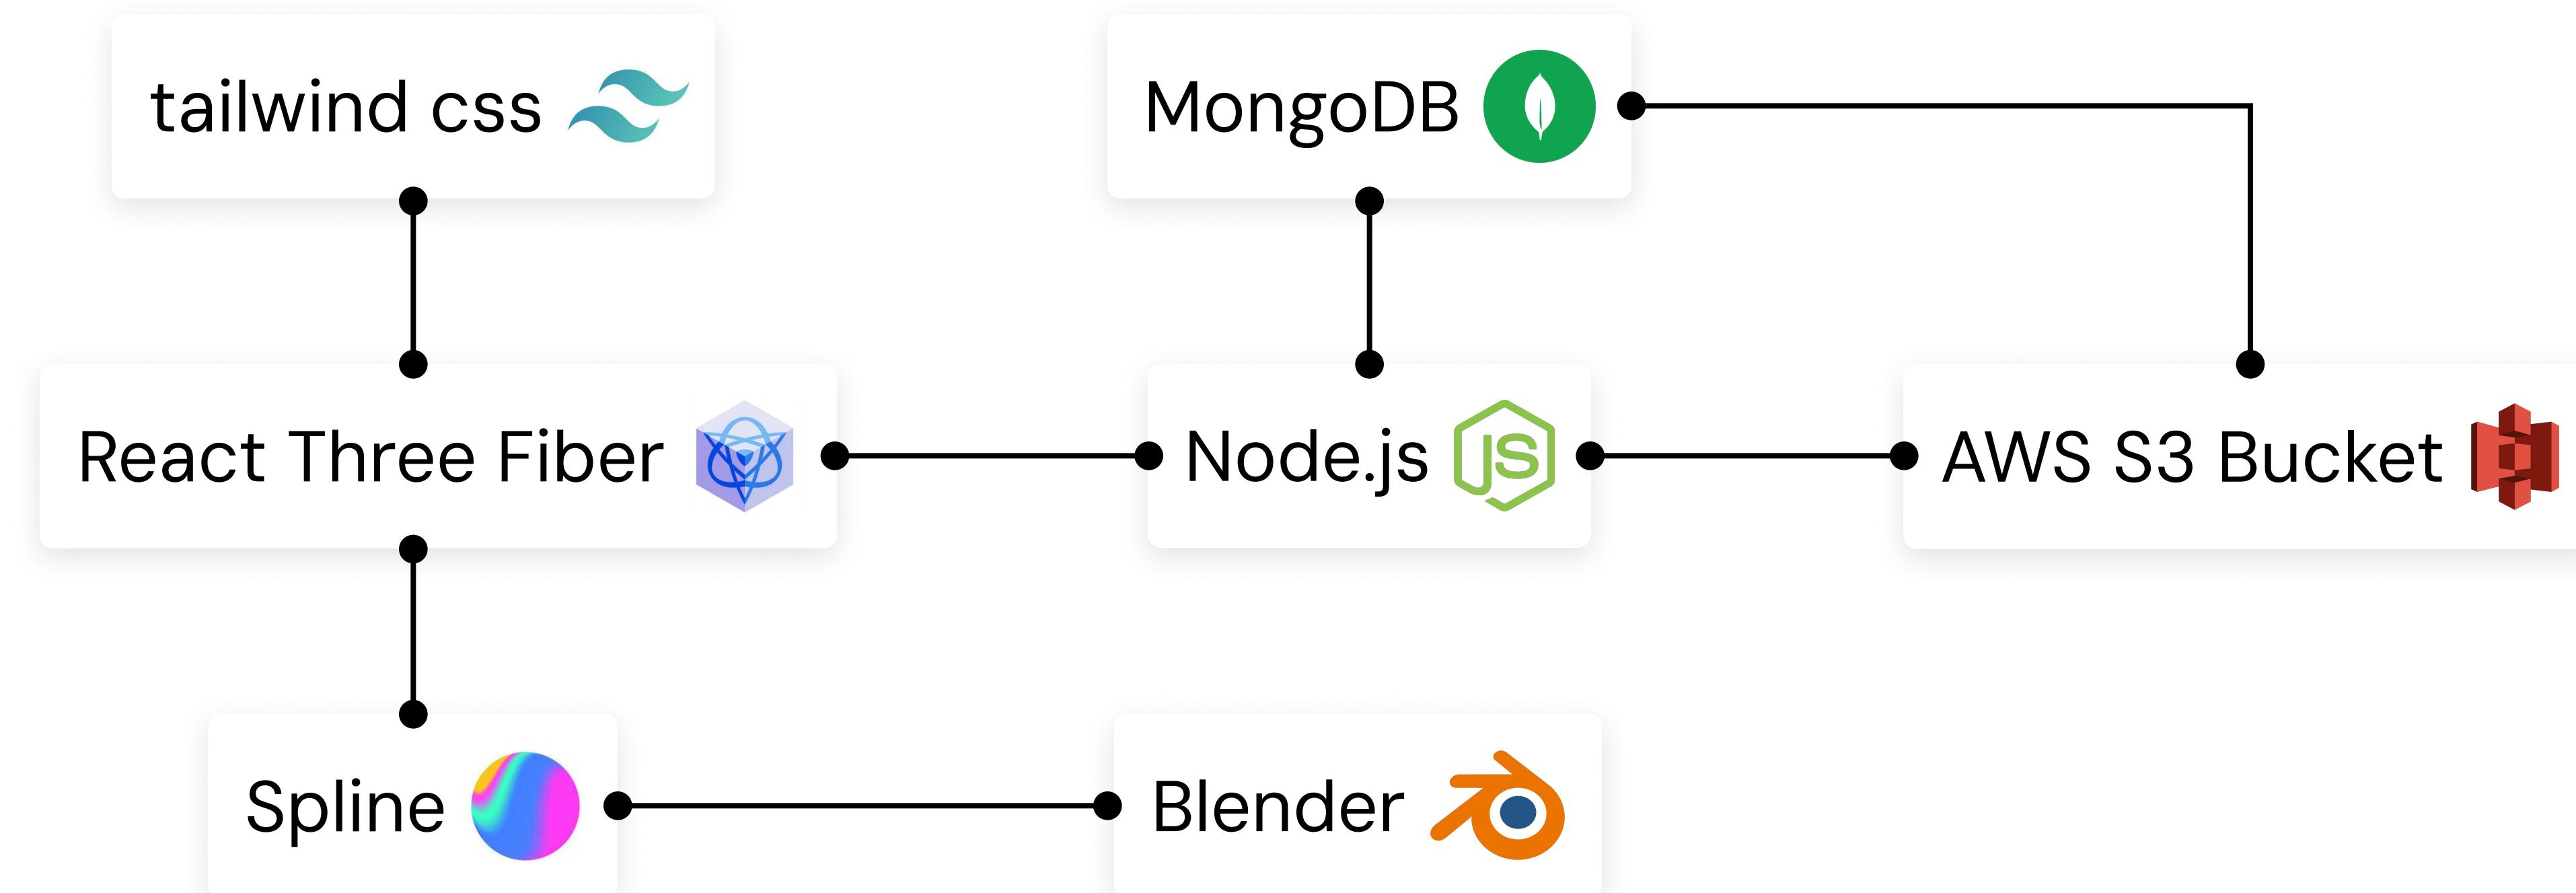

To reach our MVP by the end of the semester, we worked in parallel on both the interface and the 3D model development.
